Dear Irwin,

The season prior to your coming into our child care center, we had been battling many colds and illnesses between our children. We were trying all types of special cleaners, services and doing all we could to prevent illness and germs from spreading. When you came in with your service, I was a little skeptical, but we decided to try the service in a desperate attempt to rid our center of all the colds and germs that came along with the change of seasons. I have to say we haven't regretted the decision at all. Our center has had much less illness and spread of germs since you came to treat our center.

Irwin, you are professional, prompt and have been very informative throughout every step of the process in helping us eliminate germs. I appreciate that you also helped us educate our parents on the process. We can't thank you enough!!

Thank you for your continued cooperation,

Sincerely,

Lauren Fifick, Director

Jennifer Monteiro, Assistant Director

Red Carpet Kids Child Care Center
